# BoosterDX Package

Cummins-Wagner has a proven history of providing custom booster packages for commercial and industrial customers. Our EPS division is happy to introduce our **BoosterDX** product line of booster pump packages to join our established line of packaged systems.

Our standard duplex model units provide a total range in flow capacities of up to 450GPM with boosting pressures reaching an excess of 200psi. Standard Triplex and Quadplex booster models feature flow rates up to 1,350GPM. All units are fully assembled, wired, painted, and factory tested to guarantee full operability upon shipment and ensure a simply, worry free start-up.

Variable speed drives and an intelligent control panel provide customers with maximum control flexibility in a compact design.

## Key Features:

- Compact design. Models starting at 30" x 40" footprint.
- Automatic pressure control
- Adjustable pump Lead/Lag and Alternation
- 6" HMI screen for clear system status display and intuitive set point adjustments.
- UL 508A listed control panel
- Stainless steel piping with flanged process connections
- Single point electrical connection
- Remote pressure set point adjustment via BACnet MSTP
- Includes pressure transmitter
- Painted steel frame and base (stainless steel frame and base also available)

Booster Capacity Listing

| Model Number | Duplex Nominal Flow (gpm) | Triplex Nominal Flow (gpm) | Quadplex Nominal Flow (gpm) | Nominal Pressure (feet of head) |
|--------------|---------------------------|----------------------------|-----------------------------|---------------------------------|
| BDX-15-8-1.5 | 15                        | 30                         | 45                          | 182                             |
| BDX-30-6-1.5 | 30                        | 60                         | 90                          | 130                             |
| BDX-46-9-2.5 | 46                        | 92                         | 138                         | 200                             |
| BDX-80-10-3  | 80                        | 160                        | 240                         | 235                             |
| BDX-90-5-3   | 90                        | 180                        | 270                         | 110                             |
| BDX-120-4-4  | 120                       | 240                        | 360                         | 94                              |
| BDX-150-7-4  | 150                       | 300                        | 450                         | 165                             |
| BDX-155-20-4 | 155                       | 310                        | 465                         | 470                             |
| BDX-225-7-4  | 225                       | 450                        | 675                         | 156                             |
| BDX-315-16-5 | 315                       | 630                        | 945                         | 380                             |
| BDX-450-16-6 | 450                       | 900                        | 1350                        | 370                             |
