

"A 100% Employee-Owned Company"

Compressed Air Packages

The Engineered Process Solutions (EPS) division of Cummins-Wagner offers turn-key compressed air packaged systems to meet your specific plant air needs. Each system is pre-wired and pre-piped for easy customer hook up. Offering a full range of compressor types and capacities, EPS can create a packaged system to meet any capacity requirements.

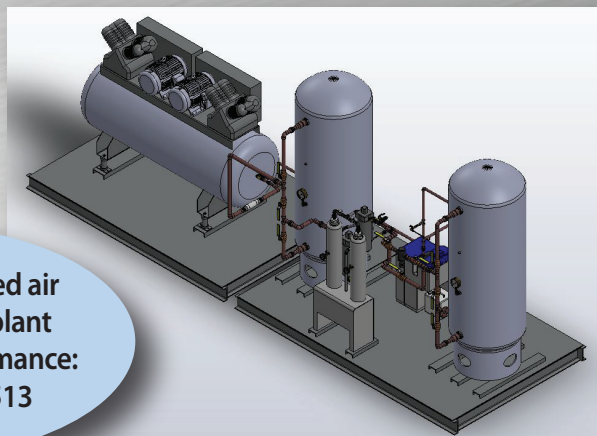

Compressed Air Packages

- Compressor capacities from 25HP-300HP or greater
- Oil Flooded, Oil Free, Oil-less options available
- Equipment sizing, line sizing, and package layout design completed in-house by our engineering team
- Packages include all piping, electrical, and accessory equipment for a complete working system

Optional equipment includes:

- Air Dryer (Refrigerated or Desiccant)
- Filters
- Receiver Tanks
- Oil Water Separators

We offer compressed air audits of existing plant equipment & performance:
Call: (610) 880-1513

Packaged Buildings

Compressor Packages can be housed within a custom building, providing flexibility and protection for systems that need to be placed outside.

Choice of fiberglass or steel building, equipped with:

- Lighting
- Heating
- Vents/Fans
- Insulation
- Access Doors
- Steel Floor Base
- Electrical (Load Center, Transformers, Disconnects, Outlets)
